

I-5 Corridor Improvements

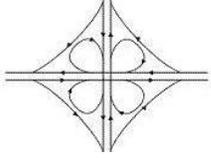

Burbank

Magnolia Boulevard to Buena Vista Street

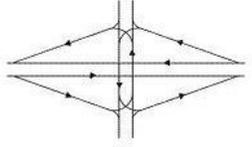

FAQ: Burbank Boulevard Overcrossing

What improvements are planned for the Burbank Boulevard interchange?

- The Burbank Boulevard overcrossing will be reconstructed to accommodate the new carpool lanes between Magnolia Boulevard and Buena Vista Street.
- The overcrossing will have a wider sidewalk for pedestrians and bike lanes in both directions.
- The existing partial cloverleaf interchange will be reconfigured into a diamond interchange.

Cloverleaf Interchange

Diamond Interchange

When will the work begin and how long will it take?

Reconstruction of the Burbank Boulevard overcrossing will begin in 2019 and take about 14 months to complete.

Will the Burbank Boulevard overcrossing and Empire Avenue undercrossing be under construction at the same time?

No. The Empire Avenue undercrossing will be completed first. The Burbank Boulevard overcrossing will be in use until the improved I-5/Empire Avenue undercrossing is fully operational, thereby minimizing inconvenience to motorists.

What will happen to the on- and off-ramps when Caltrans is reconstructing the bridge?

When the Burbank Boulevard overcrossing is closed for reconstruction, the off-ramps will remain open, and the on-ramps will be closed.

Will motorists still be able to access the commercial district easily?

Yes. Caltrans has worked closely with the City of Burbank to develop effective detours for each phase of the project. Detours will be signed and maps will be available. Additionally, Caltrans has worked with the City to adjust the timing of signals to reflect changes in traffic patterns caused by construction. Traffic will be monitored on an ongoing basis and adjustments will be made as necessary.

What are the project benefits? This project will significantly reduce congestion, improve traffic circulation and enhance safety.

How can I get more information about this project?
